BATTLEFORD, May 3.

A valuable horse belonging to N. McKenzie was shot last week by the veterinary surgeon for being affected with glanders.

Mr. Geo. Donovan, formerly of Mahaffy & Clinkskill's store will shortly leave here for London, England. Mrs. Donovan will accompany him.

J. M. Skelton and Hector Prince have bought sixty head of cattle from Dan Finlayson. They will be kept at Birch lake north of here, where Mr. Prince will have charge of them.

The jovial countenance of our popular registrar, Mr. W. J. Scott has been missed amongst us since the beginning of last week, he being kept at home through illness. Dr. Pare is attending him.

Dr. Pare and family will leave here about the middle of this month for the east. The three Misses Pare will remain in Montreal to complete their education. The doctor will return in June.

Mr. Ingram, landmaster at the industrial school and Miss Parker, matron of the same institution were married last Monday morning, 1st May, by the Rev. Mr. Matheson. They are now the guests of Mr. Dunbar, farm instructor. They have severed their connection with the industrial school.

WINNIPEG, May 4.

Navigation is now open at Montreal.

The Cuban revolution is over, the rebels having surrendered.

The Red River is slowly rising and a flood is imminent at Winnipeg.

A reservoir burst at Lima, Ohio, and a number of people were killed.

The Ontario government has decided to grant a plebiscite on prohibition.

Several more cases of small-pox have appeared in the Winnipeg quarantine.

The betrothal of Prince George and Princess Mary of Teck has been officially announced.

There is practically no doubt that McIntosh will get the Northwest governorship.

A big row is brewing in British Columbia and the secession sentiment is spreading rapidly.

Daly and Burgess have gone to Washington to study the quarantine regulations of the United States.

Reported that lieutenant-governor Royal will practice law in Montreal after the expiration of his term of office.

It is announced that the C. P. R. has established a semi-monthly steamship service between Canada and Australia.

Dr. McEachern says that the government's decision to allow settlers to mix with rancher will ruin the ranching business.

The annual meeting of the Great Northwest Central was successfully held and the promise made that work would be commenced soon.

LOCAL.

TRAIN on time to-day.

POPLARS are budding out beautifully around town.

Nearly 20 inches of snow fell at Pincher creek on April 20th.

FOOTBALL practice on Saturday evening on the race track at 6:30.

F. B. KARRAS has secured the contract of erecting H. C. Lisle's residence.

H. BOWEN has entered the employ of John Cameron, general merchant.

T. W. CHAMBERS, D. L. S. has gone south with D. McDonald to lay out a town site at Lebou.

A SPECIAL train arrived on Tuesday with 3 cars of lumber, 3 of emigrant effects and one of hardware.

MR. LAKE, clerk on the Stony Plain Indian agency, returned last week from a vacation trip to England.

EARLY sown grain is sprouting vigorously. There is every indication that the present season will be earlier than usual in actual growth.

FRASER & CO.'s steamboat to ply on the Saskatchewan between Edmonton and the firm's timber float 60 miles up the river, was shipped from Toronto to-day.

J. T. BLOWEY, furniture dealer, arrived from Vancouver on Monday's train to open business here in W. S. Robertson's building. He is accompanied by Mrs. Blowey.

At the auction sale this afternoon of a quarter section of unimproved land, three and a half miles north of town, P. D. Campbell was the purchaser at \$3.65 an acre, cash.

WORK on the new land office is in progress, but the progress is so slow as to be almost imperceptible. At the present rate the building will be completed about two years from next fall.

The show windows in John Cameron's new store are now dressed in a style which reflects the greatest credit on the artists and adds greatly to the appearance of the store and the street.

FREE Press, April 25: A large party of Swedes passed through the city yesterday on their way to the Edmonton district. They are possessed of considerable means, and if successful will no doubt influence many more of their countrymen to come to this country.

ALTHOUGH the cold of last winter was so great the frost penetrated the ground to a much less depth than usual, as the snow came early last fall before the frost had penetrated and prevented it from going in deeply. This will permit the warning of the ground more quickly than usual.

A SLIGHT warm rain fell on Wednesday morning, starting the grass and mellowing the air deliciously. This is unusually early for rain to fall in this region, the first not generally coming before the 20th of May or even later. The first rain is generally the signal for the drying spring winds to cease and for growth to start strongly and universally.

J. R. BRENTON, who went to the Landing with R. Second last week returned to-day. The Athabasca broke on Saturday, April 29th and was running clear of ice on Monday morning. Capt. Favel and crew for the steamer Grahame started for Chipewyan on Wednesday. R. Second and party also started for Chipewyan on that day. The road to the Landing is fairly good. Mr. Brenton making the trip out loaded in three days and a half.

ANALYSIS OF SASKATCHEWAN WATER.

The following analysis of the water of the Saskatchewan river has been received by H. C. Lale, for the Edmonton brewing company, from A. R. Pyne, Dominion analyst, Toronto university. The sample for analysis was sent on March 22nd:

	In parts per gallon.
Silica,	.336
Sodium Sulphate,	1.741
Potassium,	.270
Magnesium,	3.124
Carbonate,	3.738
Calcium,	11.109
Chlorine,	only a trace.
Nitrogen as nitrates,	.00077
Total solids,	22.890
Volatile matter,	.00175
Free ammonia,	.10448
Albumen,	.00651
Oxygen consumed in 15 minutes,	.02044
" " in 4 hours,	none.
Odor,	slightly turbid.
Appearance,	slightly turbid.

This water I think is well suited for brewing purposes as it contains very little alkaline compounds, as the analysis shows, while it has a good percentage of the lime salts which are always viewed in a favorable light. From a sanitary point of view it is an excellent water.

Dominion Analyst.

Free Press, April 28th: "Yesterday's official report from the quarantine station, states that at present, all told, including attendants and medical officers there are 302 people in quarantine. Of this number 258 are in the outer quarantine and 44 are isolated. There are four patients in the pest car; including the child trait, who is improving; Miss Jackson, whose condition is good with the disease developing typically but in mild form, and the child, Eva Meyers, whose case is also not considered dangerous. A list of those in quarantine with names and places of destination has been made out, and according to the list 91 are ticketed to Winnipeg, 14 are going to the coast, 36 have their destination at Kootenai, Saskatchewan, 8 are going through to Minnesota, and 73 are for Europe, North Dakota. Those in the outer quarantine will probably be released the beginning of next week.

By-Law No 39

A By-Law to provide for borrowing on the credit of the Municipality at large, the sum of \$11,770.50 for the payment of the costs of certain local improvements.

Whereas under and in pursuance of paragraph (a) of section 209 (a) of the Municipal Ordinance as the said Ordinance is amended by section 13 of Ordinance No. 19 of 1880, certain petitioners lawfully presented to the Council of the Municipality of the town of Edmonton asking that certain improvements should be made upon certain streets of the town to be paid for by a special assessment upon the properties benefited.

And whereas certain of the said improvements were made, and the expenditure therefor having been met by means of temporary advances or loans effected in pursuance of Section No. 14 of the said Ordinance, No. 19 of 1880.

And whereas by-law No. 28 of the Municipality provision was made for ascertaining and determining what real property had been immediately benefited by the said improvements and the proportions in which the assessment was to be made on the various portions of the Real Estate so benefited and for assessing the cost of the said improvements by means of a special rate.

And whereas in pursuance of the said By-Law the total expenditure for the whole of the said improvements was ascertained on the 1st day of November, A. D. 1892 to be \$11,770.50; and there was also ascertained (amongst other things) the cost of the improvements made under each of the said several petitions and the nature of the improvements in each case; the real property fronting upon each of the streets whereon the said improvements have been made and the extent of its frontage on each street showing under which of the said several petitions the various portions of the said improvements were made; and the proportions in which the assessment ought to be made on the various properties ratable in respect of the said improvements.

And whereas the cost of the said improvements have in pursuance of the said By-Law No. 28 been duly assessed against said lands.

And whereas the probable life of the said improvement ascertained by the chairman of the standing committee of the council on public works, being the officer appointed by the council for that purpose, is ten years from the first day of November, 1892.

And whereas the value of the whole land fronting on the streets whereon the said improvements were made and whereon the special frontage assessment is chargeable, is according to the last revised assessment roll \$119,679.04.

And whereas for the purpose of repaying the said temporary advances or loans and interest it is necessary and expedient to borrow upon the credit of the Municipality at large the said sum of \$11,770.50 by the issue of debentures, the principal whereof shall be repayable on the 1st day of November, A. D. 1892, in the meantime, half yearly at the rate of six per cent per annum.

And whereas while the said debt is created on the credit of the Municipality at large the Municipality is to collect the same only by way of a special frontage assessment.

And whereas it is expedient to provide for the repayment of the said principal sum by the creation of an equal yearly sinking fund.

And whereas the total amount required to be raised annually by a special rate for payment of the said debt of \$11,770.50 by means of a sinking fund as aforesaid and the interest thereon as aforesaid is \$1,064.05.

And whereas the annual special rate for the paying of the interest and to create the said equal yearly sinking fund for the payment of the principal is a sum computed as follows, that is to say:—each of the parcels of land assessed as aforesaid shall in each of the said years be charged with a sum made up by adding together (1) a sum being one year's interest at the rate of six and one tenth per cent per annum on the amount assessed as aforesaid against such lot and (2) a sum being 0.8271 for each dollar of the amount so assessed as aforesaid against such lot.

Therefore the Mayor and Council of the Municipality of the town of Edmonton in council assembled enact as follows:

(1) This By-Law shall come into force on the first day of March, 1893.

(2) The Mayor and Clerk of the Municipality may borrow on the credit of the Municipality at large the said sum of \$11,770.50 and interest thereon at the rate of six per cent per annum from the first day of November, 1892, and for that purpose may issue debentures of the Municipality at large in sums not less than \$100 each and repayable on the 1st day of October, 1892, bearing interest at the rate of six per cent per annum from the first day of November, A. D. 1892, payable half yearly; such debentures to be payable at the Imperial Bank of Canada, Edmonton, Alberta, N. W. T., and to have attached to them coupons for the payment of interest.

(3) For the purpose of paying the amount which shall be required to be raised annually for paying the said interest and creating an equal yearly sinking fund to be set apart for the payment of the said principal sum of \$11,770.50, there shall be levied in each of the years 1893 to 1902, both inclusive, an annual special rate (over and above all other rates) upon all the real property assessed as aforesaid under and by virtue of said By-Law No. 28 and the said annual special rate shall be computed as follows, that is to say:—each of the parcels of land assessed as aforesaid shall in each of the said years be charged with a sum made up by adding together (1) a sum being one year's interest at the rate of six and one tenth per cent per annum on the amount assessed as aforesaid against such lot and (2) a sum being 0.8271 for each dollar of the amount so assessed as aforesaid against such lot.

(4) The credit of the Municipality is hereby pledged for the payment of the said sum of \$11,770.50 and interest as aforesaid.

Done and passed in Council this 25th day of January, 1893.

(L. S.) M. McCauley, Mayor.
A. G. RANDALL, Clerk.

I hereby assent to By-Law No. 39 of the Municipality of the town of Edmonton.

(L. S.) J. ROYAL,
Lieutenant Governor
of the Northwest Territories.

The above is a true copy of a By-Law passed by the Municipal Council of the Municipality of the town of Edmonton on the 25th day of January, A. D. 1893, and approved by His Honor the Lieutenant Governor-in-Council on or about the 5th day of April, A. D. 1893, and all persons are hereby required to take notice that anyone desirous of applying to have such By-Law or any part thereof quashed must make his application for that purpose to the Judge of the Supreme Court within three months next after the third publication of this notice, or he will be too late to be heard in that behalf.

A. G. RANDALL, Clerk.

By-Law No 48

A by-law to provide for borrowing the sum of \$15,000 upon the credit of the Municipality.

Whereas it is expedient that there should be raised by the Municipality of the Town of Edmonton the sum of \$15,000 to enable the Municipality to purchase certain fire apparatus required for the use of the Municipality and provide means for a suitable supply of water for purposes of fire-protection.

And whereas the value of the real property in the Municipality, according to the last revised assessment roll, is \$664,364.00.

And whereas the amount of the existing debt of the Municipality, other than for current expenses, is \$19,368.25 (incurred in respect of local and personal improvements) and \$763.30 for interest thereon making together \$20,131.55, whereof no part is in arrears.

And whereas it is expedient to borrow the said sum of \$15,000 by the issue of debentures, the principal whereof shall be repayable in 20 years from the date on which this by-law takes effect, at the rate of five per cent per annum, the said debentures to be payable half yearly at the rate of 5 per cent per annum.

And whereas it is expedient to provide for the repayment of the said principal sum by the creation of an equal yearly sinking fund.

And whereas the total amount which will be required to be raised annually by a special rate for repaying the said debt of \$15,000.00 by means of a sinking fund as aforesaid, and the interest thereon as aforesaid is \$1,203.65.

And whereas the annual special rate on the dollar required as being sufficient to pay the said interest and to create the said equal yearly sinking fund for the paying of the principal is one mill and eighty-two one hundredths of a mill.

Therefore the Mayor and Council of the Municipality of the town of Edmonton in council assembled enact as follows:

(1) This by-law is to take effect on the 2nd day of July, 1893.

(2) The Mayor and Clerk of the Municipality may borrow on the credit of the Municipality the said sum of \$15,000.00 and may issue debentures of the Municipality to that amount in sums not less than \$500.00 each, repayable within twenty years from the said 2nd day of July 1893, with interest at the rate of five per cent per annum payable half yearly; such debentures to be payable at the Imperial Bank of Canada, Edmonton, Alberta, N. W. T., and to have attached to them coupons for the payment of interest.

(3) For the purpose of paying the amount which shall be required to be raised annually for paying the said interest and creating an equal yearly sinking fund to be set apart for the payment of the said principal sum of \$15,000.00 a special rate of one mill and eighty-two one hundredths of a mill on the dollar, over and above all other rates and taxes, shall be levied (in the same manner and at the same times as the general municipal taxes) upon the whole ratable property in the Municipality in each year for the period of twenty years from the said 2nd day of July, 1893, being the period during which the said debentures will run.

(4) Wednesday the 10th day of May, 1893, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon at the office of the town clerk, Edmonton, is hereby fixed as the day and hour and place for taking the votes of the electors for and against this proposed by-law.

(5) A. G. Randall is hereby appointed returning officer and J. K. Michael, deputy returning officer to take the votes at the said time and place.

(6) Wednesday, the 10th day of May, 1893, at the hour of six o'clock in the afternoon at the town clerk's office, Edmonton, is hereby fixed as the time and place when and where the returning officer shall sum up the number of votes given for and against this proposed by-law.

Provisionally adopted in council this 12th day of April, 1893.

M. McCauley, Mayor.
A. G. RANDALL, Clerk.

Public notice is hereby given that the foregoing is a true copy of a proposed by-law which will be taken into consideration after one month from this 17th day of April, 1893, being the date of the first publication thereof in the "EDMONTON BULLETIN," a public newspaper published within the Municipality, and that the vote of the electors of the Municipality will be taken thereon at the town clerk's office, Edmonton, on the 10th day of May, 1893, from the hour of 9 o'clock in the forenoon to 5 o'clock in the afternoon and the polls will then and there be held for that purpose.

A. G. RANDALL,
Town Clerk.

CORRESPONDENCE.

EDMONTON, ALBERTA, April 26th, 1893.
To the Editor of the Edmonton Bulletin.

SIR—I wish to give you my opinion of this country. I have lived in Eastern Washington for a number of years, and have heard a great deal about this country both good and bad. I came here about three weeks ago and have been travelling around the country ever since my arrival. I have bought land here and have decided to make my home here. The Edmonton district is good enough for me, to take this country for mixed farming I believe that there is no place in the world to equal it.

I take notice that stock of all kinds do well here and have come through the winter in first class shape. I must say by what I have seen and heard that there was not one word of truth in the statements published by Mrs. Chapman and others in the Palouse papers.

In regard to the treatment I have received from Fitzgerald & Lucas and others I could not wish for better, especially the former. They do everything they agree to do, right up to the point. I am going to leave for Washington next train and will return in 30 days.

Yours respectfully,
L. BURNAM,
Pullman, Washington.

GENERAL NEWS:

Ice began to move in the Red River at Winnipeg on April 26.

Wild ducks reached Battleford on April 15th and geese about the same time.

Seeding commenced on the Bell farm in Eastern Assiniboia on April 24th.

Premier Greenway of Manitoba said to report recently that his government had given up immigration work in Ontario.

Free Press, April 27: Many cattle died in North Dakota last week during the severe snow storm, from cold and lack of food.

It will cost \$50,000 to repair the damage done to the N. P. bridge at Grand Forks by the ice jam which occurred there a few days ago.

The Winnipeg city council has passed a compulsory vaccination law. All persons who have not been vaccinated for 7 years must be vaccinated.

On April 27 the Canadian Pacific railway sent out from Montreal a special with about 600 English settlers for the Northwest, and about that number, mostly Swedes, left in the afternoon for the same territory.

Herald, Battleford: Advice from all parts of the Brossard settlement and beyond report that cattle came through the winter in good condition, and that they were a couple of weeks ago getting fair pickings in the openings.

Chief Justice Sedgwick of the supreme court of Canada recently took occasion in making a public address at Dalhousie college, New Brunswick, to attack Dalton McCarthy and his policy. What sort of justice might Mr. McCarthy or his cause receive at the hands of this chief justice Sedgwick should the occasion arise? Was this man made a judge to dispense justice or to argue party politics?

Richard Mitchell of Duck lake and J. A. Kerr of Regina, who visited Ireland during the winter in the interests of immigration have returned to Canada. Their reports are very conflicting. Mitchell says that on account of the prospect of home rule many are actually leaving while Kerr reports that because of the political excitement attendant on the progress of the home rule measure, it is difficult to interest the people in the subject of immigration.

Battleford Herald: The government is spending money to encourage immigration to the Northwest. Commissioner Herchner uses his official position to counteract these efforts by enjoining up objections to the country, and particularly Battleford. He knows nothing personally of what he writes, and ignores the report of the officer commanding this post, who posted himself on the subjects referred before making it. Judge Wetmore found many of the commissioner's actions unjustifiable and unwarrantable, and here is another to be added to the list.

The New York Herald, in reply to an offer of \$1000 for the publication of a series of letters from Chicago intended to boom Kansas City, Mo., published the letter with the following comment: "It ought to be well known by this time that the Herald has steadfastly refused to do business along these lines, however profitable it may promise to be. We print advertisements as advertisements and news as news. We have never regarded it as good journalism to allow an advertisement to assume the disguise of news, to take its place in the news columns, and so deceive the public."

Free Press, April 26: Dr. Hewitt, Red Wing, Minnesota, medical health officer of the State of Minnesota, arrived from the south yesterday to confer with the provincial health board on sanitary matters. A meeting was held in the Manitoba hotel last evening, and a discussion on quarantine for the mutual benefit of Manitoba and Minnesota was held, in view of expected dangers from European diseases. The conference resulted very satisfactorily. Dr. Hewitt congratulated the members on the formation of a health board. The medical superintendents from North and South Dakota were expected but they were delayed, and Dr. Hewitt returns south this morning.

Two distinct cyclones, a terrific hail storm and a waterspout combined to wreak awful destruction in the newly built towns in Oklahoma on April 25th. It is reported that sixty-two human lives were sacrificed. It is positive that forty were killed, while several were fatally and scores seriously injured. The damage to property is incalculable. Orders for thirty-one coffins have been received. Supplies have been telegraphed for from other points. The brunt of the storm was laid upon the prosperous little town of Norman on the Santa Fe railway about twenty miles south of Oklahoma city. At that point thirty-one people were killed, dozens injured, and the town almost completely destroyed.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

EDMONTON BULLETIN MAY 4TH, 1893

THE DEBENTURE BY LAWS.

The two town debenture by laws which have appeared in the BULLETIN for the past few issues demand more than passing notice from each ratepayer of the municipality. By No. 39 it appears that the credit of the municipality at large is pledged for ten years for the payment of \$11,770.50, being the cost of the road improvements made last year on special petition and to be paid for by special tax. While there was or should have been at the time a thorough understanding as to the conditions attending these frontage tax improvements the fact that the credit of the town at large is pledged for the payment is brought out rather more clearly now than ever before and it will be well for the future to consider this feature of the case in connection with coming petitions for special works to be paid for by special assessments. There was certainly too much of a tendency last year to endorse any such expenditure on the ground that the town did not have to pay for it. But when the town is compelled to become security for the payment—as it is—it becomes an important question as to how far it is justified in going in pledging its credit for any certain work. Certainly the extensive grading of last year will have to be or should be followed by very considerable sidewalk this year. But the benefit to be derived by the town at large should be considered in every case before the credit of the town at large is pledged for ten years for their construction.

By-law 48 demands even more attention than No. 39. It is for the purpose of borrowing \$15,000 "to enable the municipality to erect a fire hall, to purchase certain fire apparatus required for the use of the municipality and provide means for a suitable supply of water for purposes of fire protection." In the case of by-law 39 the expenditure has been incurred, the money must be paid; the only matter for consideration is, how future action is to be influenced by past experience. In the case of No. 48 the expenditure has not yet been incurred and can only be incurred if the ratepayers by their votes declare that it is advisable. Last fall a by-law to borrow \$10,000 for similar purposes was rejected by the ratepayers. The question is: Was that rejection a mistake? and what are the circumstances which have since arisen to make acceptable now what was objectionable then? It will be noticed that by the wording of the by-law, if it is carried the town is assured of a fire hall, but has not the faintest assurance as to the nature or adequacy of the fire appliances to be purchased or the water supply to be furnished. Judging by the experience of last fall people are not going to vote for this by-law merely to secure a fire hall. The main point that will naturally influence their votes will be the nature and cost respectively of the fire appliances and of the water supply. By the present reading of the by-law they are liable to be let in for a good deal of fire hall and very little engine or water supply. Unless the amounts for each specific purpose are mentioned in the by-law the ratepayer has no assurance that the proportionate division which he considers necessary will be made.

Taking for granted, however, that what was stated privately a few weeks ago—and which should have been specified in the by-law—is correct, and that the intention is to use this money when voted to purchase a first class steam fire engine, which will meet all possible exigencies in this somewhat peculiarly situated town, it will be as well to consider the matter in that light. The BULLETIN has no hesitation in stating its belief that under existing circumstances the exigencies of the case are not sufficiently great to warrant this large expenditure, nor are the resources of the town sufficient to bear the burden of keeping up an efficient fire department, nor is the amount asked adequate for the purposes specified. While it is always well to keep up with the times, and occasionally to go ahead, it is well also to consider that everything has to have a beginning and subsequent growth, and that in many matters what would be a most pressing necessity at one stage of progress would have been an intolerable burden at an earlier stage. It is not so much the cost of a first class fire engine that is the difficulty as the great expense of having it ready for effective service at short notice. It must be remembered that the finest engine, the most enthusiastic firemen and the most abundant water supply are all of no use if they do not reach the scene of action in time. Without a skilled engineer and caretaker, so that watch would be kept day and night, without a team of trained horses ready to be hitched without delay, the engine would be of so little use as to make the first cost practically a total loss. We do not want to repeat the experience of Winnipeg in the early days, which in a fever of haste procured a fire engine and a few months later

allowed it to be burned. These are the plainest necessary expenses, but much more is wanted to make the engine useful. There must be a fire alarm system and a water supply system. There must be men to form a fire brigade. The town which receives the benefit of their services must acknowledge the compliment in substantial fashion. When the town can afford to pay for keeping up effectively a steam fire engine will be time enough to buy one and not till then.

Another feature of the case is the difficulty of water supply, without which all other expenditure is useless. Now it may be quite practicable—although expensive—to provide and keep filled sufficient water tanks along a part of the business portion of Jasper avenue, but it is impossible with any reasonable expenditure, owing to the large extent covered by the town and the distance the residences are apart, to provide a proper water supply for the residence portion; while the very fact of the residences not being bunched closely together reduces their need of the services of an engine to a minimum.

The most important point however, in connection with this by-law is the fact that it proposes to pledge a large share of the available credit of the town for a purpose that is not of the highest and first importance to the town. Every man knows that the question of closer railway connection is the great and important question and may involve the very existence of the town. If we did not know before we know now that to secure that close connection our credit will have to be pledged. That the sooner we come down to business on this point the easier it will be to do business, and that therefore we cannot afford to pledge \$15,000 of our not unlimited credit for a purpose that however wise or desirable under some circumstances, is not of the same pressing necessity or extreme importance; especially in view of the fact that we have a very effective set of fire appliances at present which have rendered good service in the past and are as yet more suitable to our needs than a steam fire engine would be. If a debenture by-law to raise \$15,000 to aid in the construction of a railway and traffic bridge were being submitted we would be taking the first practical step towards securing permanently to this town the position which it now holds, and which it must take means to secure or it may lose. By pledging our credit to the extent of \$15,000 for any other purpose we are simply raising a barrier \$15,000 high between ourselves and the assurance of continued commercial prosperity.

GENERAL NEWS.

The Manitoban for April is to hand.

Moosomin Spectator, April 27: Yesterday morning six settlers, with effects, arrived at Moosomin from Vancouver. On Monday night a car of stock arrived from Bracebridge, Ontario, for Mr. H. M. Thompson, a new settler.

Moosomin Spectator: Robert Cumming, who has a sheep ranch in the Moose Mountain, about twenty-five miles south of Broadview, is reported missing. He has been acting strangely for some time and it is feared that he has lost his mind. About two weeks ago he called at a neighbor's and told him that he was going to Cannington and that if he did not come back in a week to sell his things for what they would bring. Since then nothing has been heard of him.

Mr. A. Smith, Manitoba government immigration agent at Winnipeg, reports: "The total number of settlers that have arrived here for settlement in province via Fort William and Gravelton, up to April 15th, 1893, are as follows: 4503 settlers, 386 cars of stock and effects. The arrivals from Great Britain and Europe have been very large up to the above date, while the arrivals from Ontario and Eastern Canada have not been so large up to the same period last year. Owing to the unusually backward season, the demand for labor has not been so large as is usual at this season.

An Ottawa telegram says: "The banks in this city handling United States silver certificates have decided to accept them hereafter only at a discount. This step is taken with a view of protecting the interests of Canadian business which would certainly suffer severely were depreciated American currency to flood the country as at present is not improbable. The discount at present will be placed at one per cent and bank managers predict a larger discount during the summer when silver certificates are more plentiful in consequence of the summer travel. American bank bills are yet taken at par from customers of banks but are not accepted from strangers."

The Moosomin Spectator quotes from police commissioner Herchmer's report as follows: "While I have not the actual figures of liquor imported since 1st May, and under the permit system it was impossible to find out the actual quantity imported illegally, I have no hesitation in writing that the quantity of liquor used under the license system very greatly exceeds that under the permit system, and that while the heavy drinkers under the old system, except those who have taken the gold cure with advantage, still drink heavily, a considerable number of settlers who formerly seldom or never obtained liquor, are now using large quantities, and as I stated before, half-breeds can get it wherever they have money, and consequently, in many cases, Indians, in spite of the closest watchfulness on our part. Further on, in speaking of the discipline of the force, the same officer admits there has been an increase of drunkenness in that body. The list of convictions for drunkenness in Regina since 1886 is as follows: 1886, 11; 1887, 5; 1888, 3; 1889, none; 1890, 20; 1891, 3; Five months to April 30, 1892, 8. First seven months under license May 1st to November 30, 38.

HOTEL ARRIVALS.
Monday.
Alberta—W. D. Armstrong, Rushville, Nebraska; J. T. Blowsy and wife, Vancouver; H. A. O'Loughlin, Winnipeg; W. Maloney, H. R. Watson, Calgary.
Queen's—T. H. Carey, Montreal; Mrs. Morris, Calgary; Mrs. Bangs, Miss Bangs, Calgary; Jasper—J. D. Smith, Leduc; N. Faulkner, Montreal; Geo. M. Ross, Fort Saskatchewan; T. B. Henderson, Wetaskiwin; E. G. Wiswell, T. Hanover, Winnipeg.

The services connected with the induction of Rev. D.G. McQueen to the pastorate of the Presbyterian congregation here were held on Monday evening. The Presbytery of Calgary, within whose jurisdiction Edmonton is, was represented by Rev. Messrs. Herdman of Calgary, Fernie of Innisfail and Matheson of High River, Major Walker of Calgary, who was expected to be present as a representative of the lay members of the congregation. Rev. Mr. Matheson acted as moderator. Rev. Mr. Fernie preached a suitable discourse. The edict of induction was read by W. Johnston Walker. Rev. Mr. McQueen was addressed by Rev. Mr. Herdman and the congregation was addressed by Rev. Mr. Matheson. This completed the induction service, after which refreshments were served and some time spent in social conversation. There was a very good attendance of members of the congregation. Rev. Messrs. Fernie and Matheson came in on Monday's train and with Rev. Mr. Herdman left on Tuesday.

THERE was a stormy meeting of the school board on Tuesday evening, which wound up by principal Campbell tendering his resignation; and three of the trustees, Messrs. M. McCauley, chairman of the board, John Cameron and Jas. McDonald also tendered their resignations. It appears that some weeks ago Mr. Campbell heard that rumors were in circulation as to ill conduct on the part of pupils attending the school. He demanded an official investigation. As there were only rumors to investigate no very definite result was reached, and the matter seemed likely to drop. The trouble on Tuesday night arose over the minutes of the special meeting connected with the investigations. It is to be hoped that the several parties will reconsider their hasty action, and by pulling together keep the school up to its present high standard of excellence, and continue to improve it, rather than quarrel about how nearly it has reached impossible perfection.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

LADIES', MEN'S AND CHILDREN'S DEPARTMENTS
HOUSE FURNISHINGS, &c., &c.

Will be found a splendid assortment of goods which cannot fail to please, and at prices that must draw crowds of purchasers.
